Education

Keystone school of Engineering CompEngg 2022-Ongoing
SE 8 CGPA

Creative International School and Jr college 12th 2021-22
SSC 86.33%

L G Bansude English Medium School 10th 2020-21
SSC 92.40%

Projects

Weather Forecasting

A weather forecasting project implemented in HTML, CSS, and JavaScript can display real-time weather updates for any location. It uses APIs like OpenWeatherMap to fetch weather data, such as temperature, humidity, and wind speed, and presents it in a clean and responsive UI. JavaScript handles API calls and dynamic updates, CSS ensures an engaging design, and HTML structures the content for a user-friendly experience. This project demonstrates the integration of web technologies and API usage for practical applications.

Fire fighting robot(IOT)

A fire-fighting robot with IoT detects and extinguishes fires using sensors and real-time monitoring. It navigates autonomously and can be controlled remotely via a smartphone or app, ensuring quick and efficient fire response

Certifications

- 1.Completed java training offerd by Spoken Tutorial project, IIT Bombay.
- 2.NPTL online Certification in DBMS,IIT Kharagpur.
- 3.CPC Academy pune certifided in C programiing.
- 4.Certification in Tata Group's Cybersecurity Analyst on @[Forage]
- 5.The completed the course Introduction to HTML by [Simplilearn](#)
- 6.Short-Term Training Program on JAVA Full Stack with React JS & AI.
